

Transfer Planning Worksheet

Environmental Science/Environmental Studies

Below are the lower-division courses that will prepare students to enter the Environmental Science or Studies program in an efficient manner. All of these courses are offered at UW Tacoma; however, transfer students who want to take them at a community college or elsewhere prior to enrolling at UW Tacoma should use this guide to plan their schedules with an adviser. Minimum grades are posted for each course. All of these courses should be taken within five years of admission to UW Tacoma. If courses are older, please check with the Environmental Science adviser.

Bachelor of Science in Environmental Science

ALREADY COMPLETED

STILL NEED TO TAKE

Biology (15 credits)

College-level majors sequence with lab
Minimum grade of 1.5 in each class

Chemistry (15 credits)

College-level majors sequence with lab
Minimum grade of 1.7 in each class

Geology (5 credits) *Minimum grade of 2.0*

College-level course with lab

Physics (5 credits) *Minimum grade of 2.0*

College-level mechanics course with lab

Calculus (5 credits) *Minimum grade of 2.0*

Statistics (5 credits) *Minimum grade of 2.0*

Bachelor of Arts concentration in Environmental Studies

ALREADY COMPLETED

STILL NEED TO TAKE

Ecology-focused Biology (5 credits)

College-level course with lab
Minimum grade of 1.5

Chemistry (5 credits) *Minimum grade of 1.7*

College-level course with lab

Geosciences (5 credits) *Minimum grade of 2.0*

College-level course with lab
(physical geology or oceanography)

Statistics (5 credits) *Minimum grade of 2.0*

Pre-calculus (5 credits) *Minimum grade of 2.5*
